

## RECORD DAY IN STOCK MARKET

Shares Sold in Large Blocks and Investors Rush to Buy.

### ALL SECURITIES BOUGHT.

Over 500,000 Shares Traded in During the First Hour.

All previous records for activity in the local stock market were eclipsed during the first hour of today's business. Not only was the volume of business enormous, but the "buys" which began immediately after election day was continued with new high records for some issues.

A conservative estimate of the first hour's business is placed at 52,000 shares. This is exclusive of transactions in odd lots, which would probably bring the total sales up to at least 50,000 shares.

Operations were again well distributed and included some hitherto inconspicuous issues, including Valspar and Erie shares. The activity in these stocks was on reports that the New York Central and Pennsylvania roads contemplated their absorption.

Transactions in these stocks were fairly large, with material gains in spite of all attempts to bear the list. The balance of the railways suffered some reaction owing to the rush.

Selling in the industrial shares altogether overshadowed the buying. The declines were more conspicuous in this quarter. Sugar, People's Gas and American Linseed were the heaviest losers, with declines of 1 1/4 and 7/8 per cent, respectively. Railroads were active and more steady at a decline, while transactions were stagnant, with the exception of Manhattan, which was off 1 1/2 per cent.

Prices went lower during the noon hour than during the morning, but generally the whole list was affected, but some of the specialties held above Saturday's level. General Electric advanced to 109 3/4, a rise of 4 1/4 points. American Linseed Oil dropped 1/2 point, and the preferred 3 points on light loadings.

The market took an upward turn during the final hour, and there was general recovery of most of the earlier losses, shares covering heavily. Northern Pacific led with a rise to 34 3/4, 2 1/2 above the low point, and Union Pacific rose 1/2. Great Northern preferred rose 1/2 in all and Colorado & Southern first preferred.

This bears raised some of the specialties and brought the advance to a pause. Prices yielded again all around. Buffalo, Rochester & Pittsburgh, and Great Northern preferred 3 points each. The closing was active and easy, with the low point and with gains and losses mixed.

The total sales of stocks today were 1,200,000 shares and of bonds \$1,200,000 par value.

The closing quotations.
